The screenshot shows the product page for the Titan Mix Round Cone downlight. The page has a dark background with white and blue text. At the top, there is a navigation menu with links for HOME, PRODUCTS, COMPANY, DOWNLOADS, OUTLET, and CONTACT. The main content area features a large image of the downlight on the left and a list of specifications on the right. Below the specifications, there are sections for Downloads, Photometric, and Other. At the bottom, there is an 'images' section with a gallery of product photos.

Titan Mix Round Cone
1010.90.2700.40.01-B

Specs
CE RoHS IP20 960°C

Luminaire Body:
Type: Recessed downlight
Material: Aluminium
Color: White Matt Texture
Luminaire orientation: Cardanic
Light direction: Down
Hor. adjustment: 350°
Vert. adjustment: 40°
Height: 68mm
Diameter: 92mm
build-in depth: 80mm
Saw hole: 84-85mm
Dimming: Yes

Lightsource:
Type: Bridgelux Vero10 LED (incl.)
Lamp type: COB LED
CCT: 2700K
Output: 865lm
CRI: >90
SDCM: 3
Life: 50.000hrs
Beam angle: 40°
Cooling: Passive
Current: 350mA
Power: 9.2W
Lightsource efficiency: 93lm/W

Bridgelux Vero LED (Juno, Titan & Atlas)

The Bridgelux Vero next generation LED packaged array technology offers new advancements in design flexibility, ease of use, and energy efficiency today while also defining a platform for future opportunities to integrate smart sensors and wireless communication technology for smart building control systems and other innovative applications. The Vero Series has industry leading performance and is available in configurations with color temperatures from 2700K to 5000K and a wide variety of CRI options.

Features

- Market leading efficacy,
- Broad range of CCT options from 2700K to 5000K
- CRI options include; minimum 70, 80, 90 for standard and 97 typical for Decor products
- 2 and 3 SDCM color control for 2700K-4000K CCT
- Reliable operation at up to 2X rated drive current
- Radial die pattern and improved lumen density
- 5-Year limited warranty
- All our luminaires equipped with bridgelux COB LEDs are classified risk group 1 (eye safety).

Benefits

- Broad application coverage for interior and exterior lighting
- Flexibility to respond to application driven lighting design requirements
- High quality true color reproduction
- Uniform consistent white light
- Improved optical control

CREE CXB (Vesto)

XLamp® CXB LED Arrays lead the industry in efficacy and reliability for ceramic-based COB LEDs. Cree CXB LEDs easily deliver TM-21 lifetimes well beyond L90 60,000 hours under a wide range of operating conditions. CXB LED Arrays share the same physical design as XLamp CXA and CMA LED families, allowing to leverage the existing optical, mechanical and electrical design elements to accelerate time without additional cost. CXB Standard Density LED Arrays are now available in two different versions: Standard and eTone™ LEDs. The eTone version delivers beautiful 90 CRI light quality at the same efficacy as today's standard 80 CRI LEDs.

Features

- 6-mm optical source
- Mechanical and optical design consistent with other CXA13LEDs
- Cree EasyWhite® 2-, 3- and 5-step binning
- Premium Color 2- and 3-step binning
- Standard & Premium Color LEDs available in 70, 80, 90 and 95 CRI minimum options
- eTone™ LEDs available in 90 CRI minimum option
- Forward voltage options: 9-V class, 18-V class & 36-V class
- 85 °C binning and characterization
- Extremely uniform color over viewing angle
- Top-side solder connections
- Thermocouple attach point
- NEMA SSL-3 2011 standard flux bins
- RoHS and REACH compliant
- UL® recognized component (E349212)

Citizen Dim To Warm LED (Titan)

CITIZEN ELECTRONICS is the first COB manufacturer. Their advanced knowledge and packaging technology for many years has excellent reliability and high quality of our products. This product (COB) is comprised of two different CCTs, and is to be driven using the 2 terminals

Features

- Mechanical Dimensions : 14.0 x 19.0 x 1.6 (mm)
- Package Structure : Ceramic Base Chip on Board
- Ceramic Base : material AZ214T(Certificate Number 20140905-E356524)
- Connection to Heat Sink : By Holder + M3screw, Thermally conductive glue
- CRI (Ra) : Min.90 (cool CCT)
- Cool CCT : 2,700K (IF=360mA)
- Warm CCT : 1,800K (IF=10mA)
- Chromaticity Range : 3-step MacAdam Ellipse, the center refers to ANSI C78.377:2011. (cool CCT)
- Thermal Resistance : 3.0C/W
- RoHS compliant

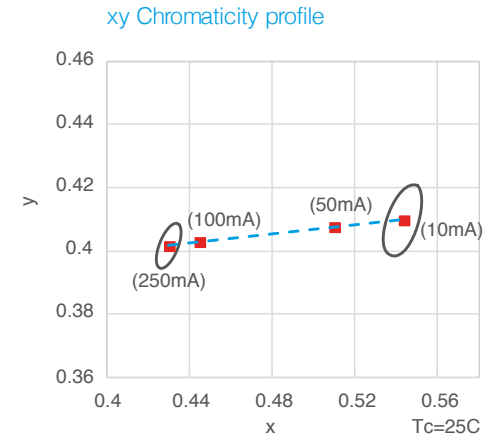

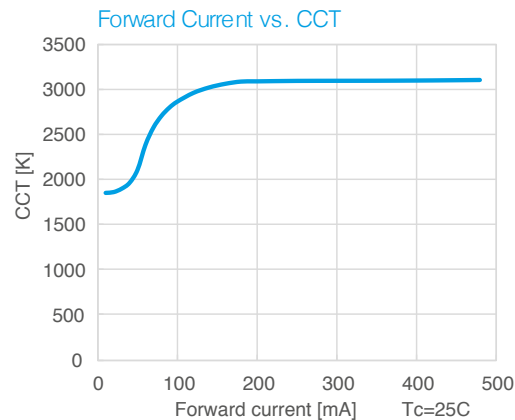

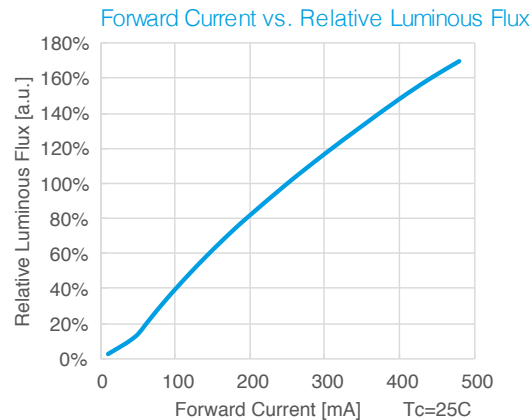

DIM TO WARM
1850K > 3100K

Driver note:

Only use drivers using AM (amplitude) dimming. Dim-To-Warm does not work with PWM drivers. In this catalogue these drivers are marked with "Dim-to-warm driver".

Dim-to-warm LED Specifications	Luminous Flux	Power	Forward Current	Voltage			Colour rendering index		Colour temperature	Chromaticity	Colour consistency
	lm	W	mA	min.	typ.	max.	Ra	R9	K	X:0.430 / Y:0.402	SDCM

CITIZEN

Citizen CLU LED (FlatLED)

CITIZEN ELECTRONICS is the first COB manufacturer. Their advanced knowledge and packaging technology for many years has excellent reliability and high quality of our products. The element arrangement of the LED package is capable of utilizing light more effectively at higher performance. The new version of the CITILED COB Series succeed to reduce the thermal resistance significantly. The new version creates more options to match the luminaire's design (ex. high performance, cost effective, higher lumen density, increased allowable max. If). The outline and LES size is the same since version 1. 3-step MacAdam ellipse color definition at Tj=85C is available.

Features

- Mechanical Dimensions: 19.0x19.0x1.4 (mm)
- Package Structure: Aluminum Base Chip on Board
- Assembly : M3 screw or Connector
- CRI (Ra) : 90 Min.
- Nominal CCT : 2700K, 3000K, 3500K, 4000K
- Chromaticity Range : 3-step MacAdam Ellipse, center refers to ANSI C78.377:2011
- Thermal Resistance : 0.61C/W
- Maximum drive current : 1380mA
- RoHS compliant
- Better die arrangement for optics
- Wide range of luminous flux and high efficacy
- Improved lumen density compared with previous version
- UL recognized component (E358566)

Citizen CLU038 (Tc=85°C)	CCT	CRI	Lum. Flux	Power consump.	Module efficacy	Nom. current	Forward voltage	Colour consist.	Lumen Maint. L70B50	Photobiol. safety

CITIZEN

Doxis Lighting Factory Colors

Standard colors

Custom colors

On request Doxis offers the possibility to order its products in custom RAL colors.

Custom RAL colors are available in 4 types:

- Matt = gloss level 30%
- Satin = gloss level 70%
- High Gloss = gloss level 100%
- Fine Structure

For more information please contact us.

Doxis Coating Facility

Since november 2017, Doxis Lighting Factory operates its own coating facility. This offers more flexibility, faster lead times, more favorable prices and a better quality control.

C	10A	104%

Dip switch setting

The output current of the LED drivers can be adjusted. This can be done using the DIP-switches on the LED driver. Always make sure the switches are set to the correct position.

DIP-switch setting and corresponding output current can be found on the table on the driver or on the driver instructions (<http://www.doxis.be>).

Air circulation

Make sure there is enough room around the spot when built in. This room is required for air circulation (for LED cooling purposes) Doxis advises to leave at least 20mm of free space above the spot for optimal cooling.

Fortimo LED Strip HV 1100lm/ft Systems (Profiles / Full Moon)

Features and benefits:

In today's rapidly changing office market, demand is increasing for scalable, energy-efficient LED lighting solutions that enhance the workspace, supporting both staff well-being and corporate image. In this evolving environment, luminaire manufacturers want a component that offers fluorescent replacement solutions and that will allow them to create slender, seamless light-lines that do not compromise on the light quality their customers are used to.

Fortimo LED Strip is a sleek linear LED array with a fixed form factor and consistent high-quality white light making it possible to create new slimline designs that go beyond traditional fluorescent office applications. Supported with a state-of-the-art Titanium driver, it is easy to design-in, enabling fast luminaire creation.

And because this energy-efficient system is scalable and upgradable, it offers a truly future-proof solution.

5 Year **PHILIPS** warranty

Light Output Ratio Profiles

The given luminous flux for Linear modules is based on the luminous flux of 4000K LED modules. For LED modules in 3000K 95% of these values can be opted. Please apply the light output ratios in the table below for a more accurate result.

Please keep in mind that these values apply to standard matt white texture powdercoated profiles. Depending on the finish a luminous flux decrease up to 18% is possible relative to the luminous flux when opting for standard matt white texture powdercoated profiles.

Light output ratios of (white) LEDLiner profiles

Emergency Lighting (Fortimo LED Line / LED Strip)

Philips TrustSight LED emergency kits come complete with battery packs. Designed for use with current-control LED drivers, they operate as a de-centralized emergency lighting solution in the event of a mains voltage failure. TrustSight LED emergency kit is compatible with most LED control gear on the market. They support applications requiring 1 or 3 hours operating time and are CE and ENEC-certified.

[Emergency module for linear modules](#)
(length of profile: 1100mm, RTG starting at ref. 08)

1Hr Standard	659.24.LED-1
3Hrs Standard	659.24.LED-3

3Hrs DALI	659.26.LED-3

Emergency modules are equipped with self-testing.
DALI version with on command testing, status read-out and additional functionality.

In case of mains failure:
In emergency mode, the Philips TrustSight LED Emergency kit acts as a 3W constant power source. This means approx. 507lm for 3000K modules (169lm/W) and approx. 534lm for 4000K modules (178lm/W). Please apply the correct LOR (light output ratio) mentioned below for a more precise estimation of the luminous flux in emergency mode for a specific luminaire.

One emergency module powers one LED module (280mm/560mm depending on linear configuration).

ActiLume Daylight- & Movement Sensor

The ActiLume system is a daylight sensor with built-in presence detection. It provides huge energy savings, maximum comfort and is also a tool for fighting climate change on our planet.

With ActiLume you get automatic energy savings of up to 70 - 75%.

ActiLume daylight/presence detection
(Min. length of profile: 1100mm, Ready To Go starting at ref. 08)

Stand-alone system	659.00.00
1 sensor integrated in 1 fixture	

Only for DALI-dimmable linear modules.
Not compatible with LEDLiner40 and LEDLiner100.

To accommodate the ActiLume sensor, extra length will be added to your Ready To Go profile:

- +100mm for R35, R45, R47, R65, R66, R80 and R85
- +50mm for R170

Ready To Go profiles - Options

Extend To Fit

art.nr. 650.99.01

In this catalogue, we offer 43 RTG's per profile type, all with fixed lengths. We can customize specific required dimensions by extending the gap between LED modules without esthetical discomfort. Profiles can be extended from 10 to 130mm, as requested.

Below, we have made an [example](#) on how to order:

Requested: LEDLiner35 Ceiling Mounted 3000mm

- Step 1: Look for the corresponding page in this catalogue > Page 190
- Step 2: Look for the nearest (smaller) dimension, closest to 3000mm > R35CM.DM.CCC.xx-21 (2986mm)

How to order a LEDLiner35 Ceiling Mounted 3000mm:

- Step 1: Order the nearest (smaller) dimension
R35CM.DM.CCC.xx-21
- Step 2: Order art.nr. 650.99.01 (Extend To Fit) and confirm requested length 3000mm
650.99.01 (3000mm)

Ceiling connecting boxes

Square ceiling mounted connecting box (in the same color as the profile) is standard included. Possibility to replace the standard connecting box by a round recessed or trimless connecting box, in the color of your choice.

Recessed Connecting Box Ø80mm

White Matt Texture	2132.00.01
Black Matt Texture	2132.00.03
Grey 9006 Matt Texture	2132.00.18
Anthracite Matt Texture	2132.00.07

Cut-out: Ø68mm (depth min. 60mm)
Other colors on request

Trimless Connecting Box Ø80mm

White Matt Texture	2133.00.01
Black Matt Texture	2133.00.03
Grey 9006 Matt Texture	2133.00.18
Anthracite Matt Texture	2133.00.07

Cut-out: Ø85mm (depth min. 60mm)
Other colors on request

Suspension set 4000mm

Our standard suspension set of 2000mm is included in all suspended luminaires.

The following ordering codes are needed for optional 4000mm suspension sets (please order 1x the article number corresponding with the required amount of suspensions)

To find out how many suspensions are required for your profile, check the last 2 figures of your RTG article number:

- ref. 06-13: 2 suspensions required
- ref. 14-24: 3 suspensions required
- ref. 25-30: 4 suspensions required
- ref. 31-48: 6 suspensions required

Suspension + White Textile Cable Supply 4000mm

	2 susp.	3 susp.	4 susp.	6 susp.
3x0.75mm ²	2144.02.01	2144.03.01	2144.04.01	2144.06.01
5x0.75mm ²	2145.02.01	2145.03.01	2145.04.01	2145.06.01
7x0.75mm ²	2146.02.01	2146.03.01	2146.04.01	2146.06.01

Suspension + Black Textile Cable Supply 4000mm

	2 susp.	3 susp.	4 susp.	6 susp.
3x0.75mm ²	2144.02.03	2144.03.03	2144.04.03	2144.06.03
5x0.75mm ²	2145.02.03	2145.03.03	2145.04.03	2145.06.03
7x0.75mm ²	2146.02.03	2146.03.03	2146.04.03	2146.06.03

Suspension + Grey Textile Cable Supply 4000mm

	2 susp.	3 susp.	4 susp.	6 susp.
3x0.75mm ²	2144.02.18	2144.03.18	2144.04.18	2144.06.18
5x0.75mm ²	2145.02.18	2145.03.18	2145.04.18	2145.06.18
7x0.75mm ²	2146.02.18	2146.03.18	2146.04.18	2146.06.18

Suspension + Transparent Cable Supply 4000mm

	2 susp.	3 susp.	4 susp.	6 susp.
9x0.75mm ²	2147.02.00	2147.03.00	2147.04.00	2147.06.00

Ready To Go profiles - Options

Profile coating colors

4 colors are standard available: White, Black, Grey and Anthracite (Matt Texture)
Other colors on request (minimum order 3 meters)

Connectors

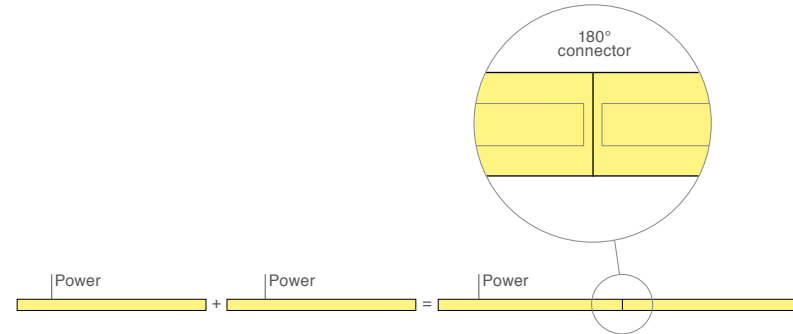

Ready To Go profiles can be joined together, using 90° or 180° connectors.

When joining your Ready To Go profiles with a **180° connector**, the connected result will have one power supply cable, unless specifically requested otherwise.

RTG 180° connectors

R35 Connector 180°	2166.00.00
R47 Connector 180°	2131.00.00
R65 Connector 180°	2177.00.00
R66 Connector 180°	2177.00.00
R80 Connector 180°	2113.00.00
R85 Connector 180°	2183.00.00
R170 Connector 180°	2188.00.00
R40 Recessed Connector 180°	2197.00.00
R45 Recessed Connector 180°	725.00.00
R65 Recessed Connector 180°	725.00.00
R100 Recessed Connector 180°	2206.00.00
R40 Trimless Connector 180°	2195.00.00
R100 Trimless Connector 180°	2199.00.00

When joining your Ready To Go profiles with a **90° connector**, take into consideration that both your joined profile lengths will be extended to create the corner. The extension depends on the profile model.

RTG 90° connectors

R35 Connector 90°	2165.00.00
R47 Connector 90°	2130.00.00
R65 Connector 90°	2176.00.00
R66 Connector 90°	2176.00.00
R80 Connector 90°	2112.00.00
R85 Connector 90°	2182.00.00
R170 Connector 90°	2187.00.00
R40 Recessed Connector 90°	2196.00.00
R45 Recessed Connector 90°	724.00.00
R65 Recessed Connector 90°	724.00.00
R100 Recessed Connector 90°	2205.00.00
R40 Trimless Connector 90°	2194.00.00
R100 Trimless Connector 90°	2198.00.00

To ensure a sleek design, all 90° corners have only one diagonal cut.

Wiring information

Single circuit

Double circuit direct/indirect 7-wire*

*Double Circuit Dimming Notice!

Suspended profiles w/ 1-10V double circuit direct/indirect dimming:

- 7-wire cable (standard):
- 1 common input for 1 dimming level (direct & indirect dim together at the same level)
- 2 separated power inputs for separate switching (direct & indirect can be switched independently)

9-wire cable (optional):

- 9x0.75mm² 2000mm transp. cable 2147.00.00
- 2 separated inputs for dimming AND switching (direct & indirect dim at different levels and can be switched independently)

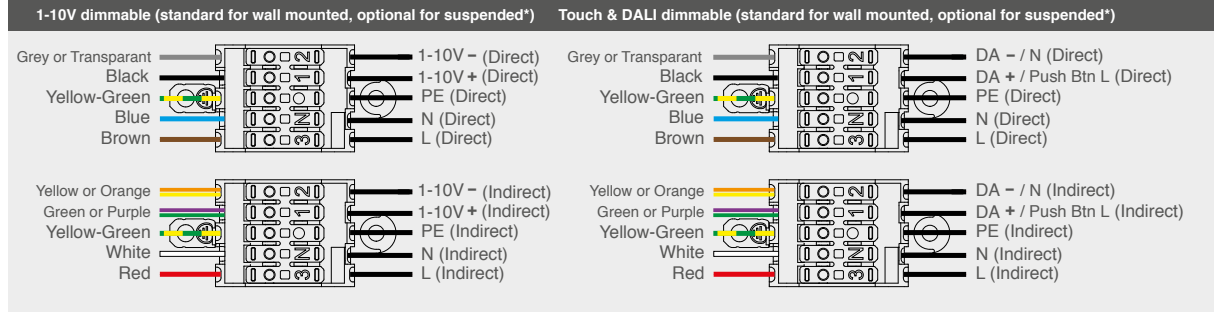

Suspended profiles w/ Touch&DALI double circuit direct/indirect dim:

- 7-wire cable (standard):
- 1 common input for continuous power supply
- 2 separated inputs for controlling with DALI or Touch dim. (direct & indirect dim at different levels and can be switched independently)

9-wire cable (optional):

- 9x0.75mm² 2000mm transp. cable 2147.00.00
- 2 separated inputs for continuous power supply
- 2 separated inputs for controlling with DALI or Touch dim. (direct & indirect dim at different levels and can be switched independently)

Double circuit direct/indirect 9-wire* (standard for wall mounted profiles, optional for suspended profiles)

Technical drawings

Example:
 RTG LEDLiner66 Up/Down, ref. 25
 (1701mm + 1843mm connected by a 180° connector + end caps = 3548mm in total)

For detailed technical drawings of all Ready To Go profiles, please check www.doxis.be

Installation notice

Make sure your luminaires are installed by certified electricians.
 Make sure enough fixation points are used.
 Make sure correct plugs and fixation screws are used for different types of ceilings.
 Doxis cannot be held responsible for incorrect installation.

Attention!
Aluminium profiles will extend when warming up.

The extension is 0.5mm per meter. This should be taken into consideration for wall mounting, recessed mounting, trimless mounting and ceiling mounting applications. Extension gaps should be provided.

Suspension sets

Textile power supply (polyester)

Black textile power supply

White textile power supply

Grey textile power supply

LEDLiner Suspension

Suspension cable for LEDLiner profiles

Standard ceiling connecting boxes

Standard ceiling connecting box (Square)

Standard ceiling connecting box (Round)

Optional Ceiling connecting boxes

Recessed connecting box

Trimless connecting box

Full Moon diffusion

Standard Diffusion

Standard Diffusion:
LED Lines are slightly visible through the Polycarbonate cover.
The effect can be compared to the Full Moon with T5 Tubes.
Less components are used so this configuration is a little more budget friendly.

Optimal Diffusion

Optimal Diffusion:
The use of more components results in a very clean diffusion, LEDs are no longer visible.
The complete surface of the polycarbonate cover is equally lit.
