Driver "Duo" 1-10V / Push / DALI dimmable

Art. nr. 490.26.40 Independant LED driver

DIP-switch settings:

Output current is set using dip-switches. Always make sure that dip-switch setting corresponds to the required output current. Dip-switch settings can be found printed on the driver. Incorrect settings may damage the LED

Suitable for:

Atlas 700: max. 700m/ FlatLED: max. 350mA Titan: max. 350mA Vesto 350: max. 350mA Vesto 500: max. 500mA Tekton 45: max. 350mA Tekton 65: max. 350mA

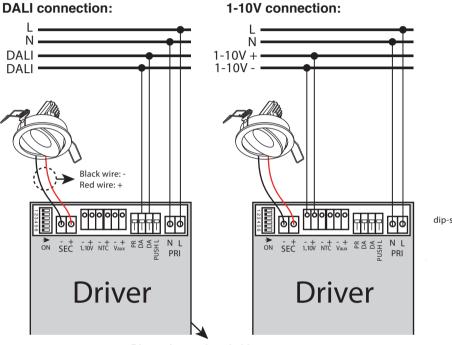

Installation information:

Wire section 0.5-2.5mm² Max 15m distance from driver to LED

Max. nr. of drivers on single circuit: MCB 10A type B: 9 MCB 16A type B: 15 MCB 20A type B: 18 MCB 25A type B: 22

MCB 10A type C: 15 MCB 16A type C: 13 MCB 16A type C: 24 MCB 20A type C: 30 MCB 25A type C: 38

Inrush current: 20A Inrush current 1/2 value time (Twidth): 400µs Power factor (λ max): 0.95

Dimensions: 124x79x22mm

Push connection:

Short push: ON / OFF Long push: increase / decrease light intensity

Other info:

1 N

For optimal functioning, it is recommended to use a max. of 5 Drivers on 1 push button. Max. cable length from push button to driver is 15m.

It is recommended to keep the push button wires separate from 230V wires (this may cause interference) Only to be used connected directely to a standard NO (normally open) push button.

Push buttons must always be installed on the same electrical circuit as the driver.

Only use normally open push buttons without additional circuitry (warning lights, relay units, etc.)

Synchronising:

When adding new LEDs or when LEDs are showing asynchronous behavior, it is possible to reset the system.

Method of resynchronisation:

1- Drivers must be on.
2- press push switch for more than 1 second

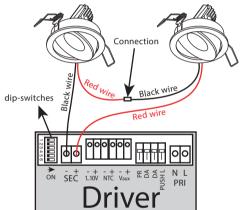

3- short push must follow immediatly after long push

Only to be installed by a qualified electrician.

Doxis cannot be held responsible for damage caused by incorrect settings or incorrect installation. Document updated 12/12/2019. This document is subject to change.

Connecting multiple LEDs:

Atlas 700: max. 2pcs/driver FlatLED: max. 2pcs/driver Titan: max. 2pcs/driver Vesto 350/500 single: max. 7pcs/driver Vesto 350/500 double: max 3pcs/driver Vesto 350/500 triple: max. 2pcs/driver Vesto 350/500 quadro: max. 1pc/driver Tekton 45: max. 2pcs/driver Tekton 65: max. 2pcs/driver Always connect IN SERIES!!!!!
